DETAILED ACTION***Double Patenting***

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1-8, 10-25, 27-32 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over the claims of copending Application No. 10/382,491 in view of Hinchcliffe (US. Pat. No. 4,614,198) or Korber (US. Pat. No. 2,821,199).

This is a provisional obviousness-type double patenting rejection.

The claims of Application No. 10/382,491 recite nearly all that is recited in the claims except it may not teach that the connecting sheet is arranged on/connected to the cigarette/tip group with two free ends; however, it would have been obvious to one having ordinary skill in the art at the time of the invention to have connected the sheets

in this manner since doing so is known in the art as evidenced by either of the Hinchcliffe (see Fig. 2, especially) or Korber references (See Fig. 3).

Response to Arguments

3. Applicant's arguments filed on June 21, 2006 have been fully considered but they are not persuasive.

- Applicant argues that even though both the Hinchcliffe and Korber references disclose a connecting sheet attached with two free ends, there is no teaching or suggesting of modifying the claims of 10/382,491 to include these feature, but the Examiner disagrees. The claims of 10/382,491 recite nearly all that is recited in the instant claims. And, what it fails to recite is not enough to patentably distinguish the claims of record from them. Obviously, there must be, subsequent to the transfer of the connecting sheet to the cigarette/tip group, the application of at least one of the ends to said group to form the partially connected component. Otherwise, there would be no way for the group to "partially connect" via the connecting sheet. The Korber and/or Hinchcliffe references merely show that such is the case, and, arguably, would be the case regardless of any "recited spacing" novelty that the instant invention exhibits.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 1731

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
